FIELD TRIPS

Give your student's young minds the fertilizer they need to grow this season with an exciting, hands-on trip to Mark's Melon Patch. Our school tours are a great opportunity for students to see the growing process of plants on a real, working farm!

Our educational tour of the farm will include educational lessons on how we grow and harvest our strawberries as we take a Hay Ride through the Farm! Hay Riders get to pick a 16oz cup of fresh strawberries, this includes Teachers & Parents too!

After the lesson portion of our Tour/Hay Ride we invite you to stay and play!

NEW THIS YEAR, Mark and his team have added a GEM MINE, MARK'S TREASURE MINE!!

We have brought the Gem Mining experience from the mountains to YOU right here in SOUTH GEORGIA! We are excited to be able to offer this experience to those traveling through our neck of the woods and to our very own South Georgia folks! Give it a try, is there a little Miner in you? A FUN experience for people of all ages and children & teens of all grades! This activity includes sifting for your Gems in the Sluice & identifying the gems with the picture & description. Sifting in the Sluice also offers sensory stimulation while benefiting from a feeling of calm and relaxation.
